DISCRIMINATION PROHIBITED

Title VI of the Civil Rights Act of 1964 states: "No person in the United States shall, on the ground of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance." Therefore, all grant and contract programs of the Bureau of Health Manpower Education, like every program or activity receiving financial assistance from the Department of Health, Education, and Welfare, must be operated in compliance with this law.

DISCRIMINATION ON BASIS OF SEX PROHIBITED

Section 799A of the PHS Act, as amended by the Comprehensive Health Manpower Training Act of 1971 (P.L. 92-157), prohibits the Secretary, DHEW, from making a contract, grant, loan guarantee, or interest subsidy payment under Title VII of the PHS Act to or for the benefit of any school of medicine, osteopathy, dentistry, veterinary medicine, optometry, pharmacy, podiatry, or public health or any training center for allied health personnel unless the application for such support contains assurances satisfactory to the Secretary that the school or training center will not discriminate on the basis of sex in the admission of individuals to its training programs.

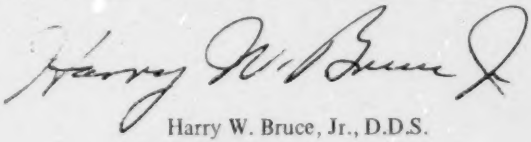
Foreword

Many requests have been received for materials on the problems of Black, Spanish-surname American, American Indian, and other minorities as they relate to the health professions.

The Comprehensive Health Manpower Act of 1971 continued and expanded the health professions education program administered by the Bureau of Health Manpower Education. For the first time it authorizes specific purposes and activities to help members of minority and disadvantaged groups to enter medicine and the other health professions.

This "Selected Bibliography" is offered as an introduction to a challenge in medical education. It is by no means all-inclusive, but is offered merely as a beginning.



Harry W. Bruce, Jr., D.D.S.
